

## FIRE COAT

Designed by Bristol Uniforms with the help of firefighters from around the world to give you a coat which is comfortable yet provides the maximum protection against heat and flame.

- Outer fabric - Nomex Delta T® or Nomex III® are standard fabrics, other outer fabrics are available.
- Standard coat design allows fixed or detachable linings.
- Front fastening by zip with flap fastened by velcro.
- Double closure feature to cuff, designed to prevent ingress of flame, water and debris.
- Standard design incorporates 2 x external and 2 x internal pockets.
- Colours available: Dark Blue, Orange, Yellow and White.
- Garments featured can be modified to meet your requirements.

## FIRE OVERTROUSERS

- Outer fabric - Nomex Delta T® or Nomex III® are standard fabrics, other outer fabrics are available.
- Feature permanently attached heavy duty braces (suspenders) with quick release snaps to the front.
- Knees are reinforced with Kevlar felt.
- Standard design features one internal pocket, no external pockets. However external pockets can be fitted to specification.
- Overtrousers can be made with full thermal lining or partial linings to specification.

Certain Nomex® fabrics are available with inherent antistatic properties
