

NON DRIP DRUM TAP

Part No. 011100

The outstanding features of the PSL taps are as follows:

- Ruggedness, ability to withstand severe working conditions.
- Full and copious flow.
- Many customers, by attaching an air cylinder or similar to valve stem, find the PSL non-drip drum tap is ideal for setting up in automatic dispensing processes.
- Absolutely no drip after tap closed.
- Positive, spring shut action. Cannot be accidentally knocked open.

CONSTRUCTION:

BODY:	Cast in high quality wear resistant gunmetal.
HANDLE & VALVE STEM:	Electro-galvanised steel for strength and durability.
SEATING:	Synthetic compound with extremely high resistance to nearly all liquids. Heavy duty spring holds seating firmly in place.
INLET:	Screwed 19mm MBSP
