

FIREMASTER MARINE FIRE CART

Often fire in Marinas are devastating due to the close proximity of vessels and the highly inflammable materials and fuels aboard boats resulting in a rapid spread of fire before the fire authorities can arrive and take control.

This is where the Firemaster Marine Fire Cart is ideal as a first response fire fighting unit for Marinas. The Firemaster Marine Fire Cart comes fully equipped and ready to go, with its self-priming pump, suction and delivery hose, nozzles and foam inductor all packaged in a highly mobile zinc shielded and white powder coated hand cart.

There is also room to add up to two 25 litre drums of foam concentrate (as pictured) which we can also supply as an optional extra depending on the type of fire fighting foam required.

FEATURES:

- Honda GX160 4-stroke OHV, 4.1kW motor with automatic mechanical decompressions and hot sparking transistorised ignition to ensure consistently easy and reliable starting.
- 3.6L Fuel capacity, low oil warning light, engine meets US EPA and CARB standards.
- Condor Twin Impellor Pump, self priming, 300 litres per minute output, 90 meter head.
- Scotty Round the Pump Foam Proportioner/Mixer
- 15m x 38mm Fireline Fire Hose with gunmetal storz coupling fitted
- 3m x 50mm Saturno Suction Hose with strainer and storz coupling fitted
- Scotty foam nozzle 50 gpm with 38mm storz coupling
- Fyrex gunmetal TB25 nozzle
- Small fire axe complete with fibreglass handle
- White powder coated frame (zinc shielded for anti corrosion), telescopic handles and large rubber wheels with UV stabilised plastic rims for easy movement. All fastenings on cart are stainless steel.

Optional extras include custom made cover (as shown)

Note: Outlets can be customised to suit customer requirements

If you do not see what you want in our brochures, please call us! We cannot show every item
